# Garage Management System (GMS)

## 3. Brainstorming / Idea Generation

Goal: Identify potential features and prioritize the most impactful ideas for development.

### Raw Ideas:

- Customer and Vehicle Management
- Service Request Tracking
- Technician Allocation
- Invoice Automation
- Service Reminder Notifications
- Dashboard for Performance Monitoring
- Role-based Access Control (Admin, Technician, Manager)
- Customer Feedback Collection

### Prioritization (MoSCoW Method):

**Must Have:** Customer, Vehicle, and Service Request Management; Technician Assignment & Deletion Restriction
**Should Have:** Invoice Generation; Dashboards & Reports
**Could Have:** SMS/Email Notifications
**Won't Have (Now):** AI/IoT Integration (planned for future version)
